Professional Summary Detail-oriented and motivated Computer Science student at NUST with hands-on experience in full-stack web development, UI/UX design, and building scalable applications using modern JavaScript frameworks. Successfully completed multiple freelance projects involving client communication, deployment, and end-to-end development. Seeking an IT / Software Development internship to apply technical skills and contribute to real-world engineering environments.

Technical Skills

- **Frontend:** React.js, HTML5, CSS3, JavaScript (ES6+), Responsive UI Design
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT)
- **Database:** MySQL, SQL Schema Design, CRUD Operations
- **Tools & Platforms:** Git/GitHub, Figma, Postman, VS Code
- **Other Skills:** UI/UX Design Principles, Wireframing, Problem Solving

Projects

Contract Management System *React.js | Express.js | MySQL*

- Developed a full-stack system for contractors to manage clients, projects, invoices, and workflow.
- Designed normalized SQL schemas, integrated REST APIs, and implemented user authentication.
- Built responsive dashboards and forms to improve usability and project tracking.

Exam Management System *React.js | Express.js | MySQL*

- Developed a centralized management platform to streamline examination logistics and administrative workflows.

- Implemented full CRUD operations allowing administrators to efficiently add, update, and delete student records.
- Engineered a dynamic seating allocation feature that automatically assigns students to specific examination halls based on capacity and enrollment data.

Construction Company Website *React.js | UI/UX | Responsive Design*

- Designed and developed a complete corporate website with clean layout and modern UI.
- Improved brand identity using consistent theming and mobile-friendly components.

Other Freelance Projects

- Delivered multiple client websites and mini-systems featuring dashboards, forms, and CRUD operations.
- Managed full workflow: requirements gathering, UI design, development, deployment, and revisions.

Experience

Freelance Web Developer *Self-Employed | Remote*

- Built and deployed web solutions for clients across various domains.
- Worked with React, Node.js, MySQL, and UI/UX tools to deliver professional-grade applications.
- Communicated directly with clients, handled feedback, and ensured project completion with high satisfaction.

Education

BS Computer Science (Ongoing) National University of Sciences & Technology (NUST) 2023 – Present

Interests

- Web Development
- UI/UX Design
- Software Engineering
